Lee,

I would like to ask that the Board for a decision on the Solar Layout at the December 14th Board Meeting. If possible please allow us some time on the Agenda to make this decision.

This will allow the Energy Team to continue to move forward with the final design and future savings calculations for this energy project.

Attached are the proposed layouts for you to review. If you have any question or concerns please feel free to contact me directly. You may reply to this email or give me a call. My cell number is below. I'm would be happy to speak with you about each layout.

Thanks,

Peter
